~ to ensure that all women and children live free of domestic and family violence ~

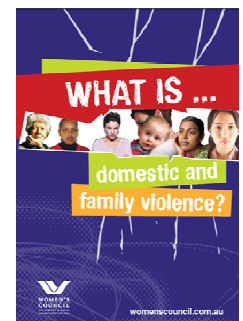

Supporting Women with Complex Needs

The Supporting Women with Complex Needs resource aims to provide readers with an introduction to supporting women who have experienced domestic and family violence who are also misusing alcohol or other drugs. This basic resource targeted at frontline workers was developed in partnership with the WA Network of Alcohol and Other Drug Agencies with funding from the WA grants for Women Program, Department for Communities and the Alcohol Education Rehabilitation Foundation.

What is Domestic and Family Violence?

What is Domestic and Family Violence? is a new community education booklet. It provides clients, service providers and public with some general information on about domestic and family violence including prevalence, forms of abuse, impacts on children and young people and barriers to leaving a violent relationship. The booklet aims to increase awareness of about domestic and family violence, dispel some of the common myths and misunderstanding, surrounding it and provide some information on where people can go for help. This colourful and easy to read resource is a great place to start when talking about domestic and family violence.

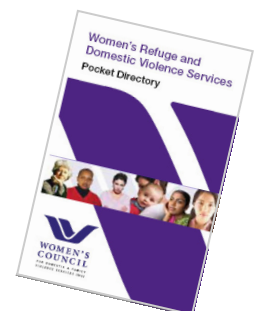

HURT Training Resources

HURT is a new and innovative education tool for the domestic and family violence sector. The website and training materials allow users to view real people telling real stories about domestic and family violence. The HURT training materials include a DVD that contains video clips of women, children and men describing their experiences of domestic and family violence and accompanying training guide that provides background information for facilitators and potential discussion topics/questions.

Women's Refuges and Domestic Violence Services Pocket Directory

Currently in Western Australia, there are 18 Women's Refuges in the metropolitan and 22 in the rural and remote areas. The Women's Refuges and Domestic Violence Services Pocket Directory contains contact numbers and service description of these Women's Refuges and other useful services in WA for women and children escaping domestic and family violence. This Pocket Directory would be handy to carry when they are seeking help and would be a useful resource for service providers for referrals/transfers.

Through Young People's Eyes Postcards

A series of postcards that provides insight into children and young people's experience of domestic and family violence was developed in partnership with Warrawee Women's Refuge with funding from the Body Shop. Young people between the ages of 5 and 11 had participated in Expressive Arts Therapy Workshops to express and describe their experience of domestic and family violence. The postcards can be used in various ways including to raise awareness about young people's experiences e.g. to normalise the feeling associated with exposure to domestic and family violence.
